Women don't go to New York for a business career, but stay in the smaller towns and with the smaller firms is the advice given by Miss Sadie Emmanuel, advertising manager of Commerce and Finance, Theodore Price's financial publication. Though she has reached the proverbial top rung in the ladder of success and reached it by going to New York Miss Emmanuel says the road is rough in the big city and urges women to enter business in smaller cities and firms; firms in which the tail and head are not so far apart that the head does not know what the tail is doing. After all is said success depends largely upon the individuals themselves and not upon the size of the city or firm.

AFTER ILLNESS OF THREE WEEKS END CAME TO HER PEACEFULLY

The death of Mrs. Jane Griffith at her home in the southeastern part of Bryan, Tuesday, May 10, 1927, at midnight, has made sad the hearts of all and many relatives and friends who mourn sincerely today with the bereaved family. After an illness of three weeks the end came peacefully and quietly at the hour above stated, and the beloved mother and grandmother, after a long and useful life here, passed on to that blessed home in the Tomorrow Land.

Mrs. Jane Griffith was born in the state of Louisiana September 13, 1851, and at the time of her death was 75 years, 7 months and 27 days of age. She had been a resident of Brazos county for the past 60 years, and was one of the pioneer women, who, with faith in God and love in her heart wrought in the days of the early settling of this great state when it took courage of mind and body to withstand the hardships and trials of that time. She was a life long member of the Baptist church, and a noble Christian, whose life reflected the faith she professed.

Deceased is survived by four daughters, Mrs. W. E. Cloud, and Mrs. L. P. Newton of Bryan; Mrs. John Martin of Houston, and Mrs. Henry F. Shepherd of Colorado, Texas. Also one sister and two brothers; Mrs. W. H. Morgan of Bryan, George Hammond of Lampasas and John Hammond of Sherman and many grandchildren, nieces and nephews.

The funeral was held at the home of the deceased, Wednesday afternoon at 3:30 conducted by Rev. J. J. Tatum, and at Reliance Baptist church at 4:15 p. m. under the direction of McCulloch-Dansby funeral directors. Interment was made in the family lot in Reliance cemetery.

Allen Boys Aid Puny Wilson In His Bull Fight

Having achieved lasting fame in athletics Puny Wilson, popular coach of Allen Academy, essayed the role of bull fighter yesterday. Speed developed on the football team enabled him to compete with a raging bull until members of the Allen Academy baseball team came to the rescue of the coach.

A bull, grazing on the football and track field of the school, spied Puny as he was going over to the baseball field. The bull took after the coach, with all the furor of a Longhorn on Thanksgiving Day, and Puny jumped to the right and to the left, sidestepping for more than 40 yards. Just as it seemed that his adversary would get the best of him, Allen boys showed up and the bull stopped to take cognizance of the spectators. Puny then did the 10-foot.

Puny has a couple of bruised legs, but otherwise he is none the worse for his Torredor exploits.

HOPE WANING RESCUE OF FRENCH FLIERS

(By Associated Press)
PARIS, May 11.—Mystery surrounding the fate of Captains Nungesser and Coli in trans Atlantic flight and of Captain Stroman and Commander Mouneyres is binding Frenchmen in common bond of anxiety. Hope still exists for former pair but general opinion here is that little ground for optimism in case of the latter, of whom nothing has been heard since they left the coast of West Africa last Thursday for Brazil.

EXPECT LEVEES TO COLLAPSE AT ANY TIME

WOULD ALLOW BIG RUSH OF WATER ACROSS THE "SUGAR BOWL"

Fight not Given Up

MOST OF DOMESTIC CANE IS GROWN IN THIS SECTION OF LOUISIANA

(By Associated Press)
NEW ORLEANS, May 11.—The levees at Bayou Des Glaisses are expected to collapse any time today allowing a rush of water across the "Sugar Bowl" of Louisiana, where most of the domestic cane is grown. The fight is not given up, however. Should the crevasse occur today it is believed the strain on the levees along the Mississippi would be relieved, minimizing the danger of additional breaks along that line.

"Crowning Of Josephine" Brilliant Pageantry Was Splendid Success

The "Crowning of Josephine," a brilliant pageantry, arranged to be a musical pageant, was the attraction by local talent at the Palace theater in Bryan Tuesday evening at 8 o'clock. More than two hundred children were in the cast, and under the able direction of Mrs. Roy Danforth and her assistants, was one of the most beautiful entertainments given in Bryan this season. Special praise is due the mothers of the children who took part for the artistic costumes in which they appeared, each one adding beauty to the ensemble. Mrs. Roy Danforth has made for herself a reputation in musical affairs in Bryan, and the entertainment of Tuesday night under her direction, added new laurels to her successes. Mrs. Joe Woollett, who trained the various drills and dances, also deserves special mention, for excellence. George Hadley, as announcer of the royal party was splendid, and his services were much appreciated by the directors. The stage setting was one of more than usual beauty, being a bower of vines and tiny rosebuds, to grace the throne of the Majesty the Queen and His Majesty the King, with their royal attendants.

Miss Katherine Higgs at the piano, Cadet Mather, violin; Cadet Waller, flute, and Bandmaster Dunn, cello, made an orchestra accompanying the musical numbers of the entertainment was greatly enjoyed. A crowd that filled the house greeted the "Crowning of Josephine" with the lifting of the first curtain, and the hearty applause given each number on the program, attested their appreciation of the evening's offering.

The first act showed the King, impersonated by Billy Moore, in regal attire and "every inch a king," ascending his throne, accompanied by his royal party. The crowned heads of fifteen countries, each brilliant in numbers, costume and address, assembled at the court

LIONS CLUB IN STATE MEETING VOTE TO SEND BAND ON TRIP

"Ty" Cobb Makes Appealing Address That Brings Unanimous Vote From Clubs Assembled. Other Bryan Men Honored Were: F. D. Fuller, Sam E. Eberstadt, and "Rip" Erskine

The Lions' Club in State convention assembled at McAllen this morning voted unanimously that Allen Academy Band, the official Lions' Club band of the State be sent to the National meeting of Lions Clubs at Miami, Florida, in June with all expenses paid, and appointed a committee with Dr. F. D. Fuller, of Bryan, as chairman to raise the necessary fund of \$3,600, assessing the Lions of Texas \$1 per capita. "Ty" Cobb of Bryan made the address to the convention, appealing to the clubs of Texas to make good their promise of one year ago when they chose the Allen Academy band as the official band of the Lions Clubs of Texas. The motion was made by Judge Harry Graves of Georgetown and seconded by Dr. J. F. Green of Temple.

Reports from the Lions delegation from Bryan to the State Lions Convention at McAllen bring the news that the delegates and the Allen Academy band are having great pleasure at the convention.

Mr. Fuller, president of the Bryan Lions Club, is a member of the committee on resolutions, and "Rip" Erskine has been made song leader on the floor of the convention. Sam E. Eberstadt was on yesterday one of the speakers at the banquet given for the District Governor, and has today been placed on the program of the Austin Club's model luncheon.

Mr. Eberstadt reports that the Bryan delegation together with the Allen Academy band have made a decided hit at the convention and that much attention and many courtesies have been extended to them. The Allen Academy band is quartered at the Country Club where every courtesy has been shown them by the entertainment committee in McAllen. The band has played for all sessions of the convention and has furnished the music for the District Governor's banquet and the model luncheon put on by the Austin Club.

The Bryan delegation is very enthusiastic over the meeting and have high expectations of bringing their program of activities there to full fruition.

(Special to The Eagle)

MOODY IS SURE SEEK SEAT IN U. S. SENATE

GOVERNOR TO BE DRAFTED BY FRIENDS WHO WILL DIRECT CAMPAIGN

AUSTIN, May 11.—"It is now safe to say that Gov. Dan Moody will be a candidate for the United States Senate in the 1928 primaries," was an authorized statement made Tuesday by Alfred P. C. Petch, member of the House from Fredericksburg, an "original Moody man," and campaigner. Petch is as close to the Governor as any member of the Legislature and it is said here to make the statement semi-official and as showing the present intention of the Governor.

"It is not only a fact that Moody is sure to make the race," said Petch, "but his friends are cognizant of it and are already preparing to organize his campaign."

"To speak plainly, this is the situation: Senator Earle Mayfield represents one of the existing political groups in this State and Ex-Gov. James E. Ferguson represents another. The great body politic is not satisfied with either of these men. This body, in my opinion, is the majority and must have a candidate who reflects neither the Mayfield nor the Ferguson group. The choice is Dan Moody and he can easily be elected."

"I do not think any of the present candidates for the Senate, avowed or tentative, measure up to the requirements demanded by the great political body of Texas, and that is why they are drafting Moody as their senatorial candidate, the same as they drafted him for Governor while he was serving his first term as Attorney General."

Crowder Acquitted In Connection With Lynching Negroes

Funds to fight the pink bollworm have been exhausted. With cooperation ending, we do not need much money to fight cotton pest.

Many of its debates this year, but it is getting the way for future forensic support. Development of this activity is a step forward.

We acknowledge with appreciation an invitation to attend the annual commencement exercises of Bryan High School, Friday, May 18, 10 a. m., at the high school auditorium, extended by Miss Frances Ballenstedt.

The boys of Waco ruled the city yesterday, just for a day. We expect they did a better job of it than they do in many places in Texas. Will Rogers is not the only mayor in the United States who is a comedian.

Bryan hopes that natural gas may be a reality here. There is nothing that gives a city a common status more than natural gas, and it adds greatly to the convenience to both homes and business. Natural gas is the best heating system that we have in Texas.

San Antonio held an indignation meeting last night on account of the purported dismissal of Miss Ora Johnson as principal of the Stockbridge high school. The citizens may or may not have just cause for a meeting of this character, but it is at least shown that they are vitally interested in their schools.

A news item from San Antonio says: "The fourth court of civil appeals here decided a case dating from 1912, holding that an exclusive agency contract granted a Nueces county firm for a certain brand of beer was invalid under the anti-trust law." It always comes to those who walk on the law.

The City Commission has acted wisely in granting the eleven feet for the new hotel project. Bryan is lucky that it did not have to subscribe a fund for the hotel. The citizens of Waco raised \$50,000 for a new hotel last week. A hotel is one of a community's best public assets, and must be regarded as such.

Attorney General Pollard has ruled that the Rock Springs catastrophe comes within the scope of the constitutional provision of "public calamity," and is eligible to receive financial aid from the State. There are many cases in Rock Springs where outside aid is needed, and this decision will prove of much help to many families that have been torn apart.

Here is hoping that the matter of harnessing the flood waters of the Brazos river will take definite shape during the present year. It goes without saying that Bryan and the Brazos River Reclamation Association will be only too glad to co-operate with the State and Federal authorities in this matter. The possibilities for the State in this development cannot be estimated, so far from losing in importance, seems to be gaining.

The annual Mothers' and Dad's Day celebration at A. and M. College was observed Sunday and Monday. Upon this occasion the mothers and fathers of the students were enabled to come to the school of their own, and see just how well their investment is paying. When so many strangers are within our gates, Bryan and College people should not forget the value of the cordial and cheerful greeting. Down here in Brazos county it has always been known that one does not need a formal introduction or even know one's name before saluting one another. It is a pretty good custom and we like it. And there is no doubt in our minds that it has had much to do with the development of our town. The story is recalled of where Tolstoi was once asked for money by a beggar on the street. He felt down into his pockets and then in disappointment said: "I haven't a penny with me brother." The beggar's face lighted up with a smile through which a mist of tears was shining, as he said: "You have given me something worth more than money; you have given me, 'brother'." After all the biggest gift that any community can possess is the gift of making friends.

Governor Dan Moody is to be congratulated on upholding the freedom of the press, in his quick action in suspending Texas Ranger A. E. Cummings, pending an investigation of his conduct in attempting to censor the press. From the facts as given there is no doubt that Cummings exceeded his authority as a peace officer in suppressing news correspondents seeking to report the conduct of the ranger at Borger. Undesirable publicity for any town is regrettable. But it is much more to be regretted that conditions leading up to such undesirable publicity are permitted to exist. The very fact that it is undesirable publicity on the part of both citizen and officer to remove the causes upon which it was based. Newspapers merely record things that are said and things that occur. This is the obligation it assumes as a newspaper. One important suggestion that comes from all is that the way to keep injurious publicity out of the papers is to stop doing the things they would deny publicity to.

AS OTHERS SEE IT

When Governor Moody and the senate finance committee visit A. and M. College this week they will hardly fail to be impressed with the pressing need for larger and better quarters for the school of agriculture. The present structure is so palpably inadequate and out of keeping with the importance of agriculture in Texas and with the need for affording the best training for students of agriculture in this banner agricultural State of the Nation, that the governor's party will be struck by the force of the situation. The program of economy that is being worked out under the present administration is gratifying to the people of the State, but it is certain that the people do not desire that essential things be neglected for lack of financial support, and advancement of agriculture in Texas is surely an essential if anything. The Texas farmer faces serious problems. He must adjust himself to a new situation. He is hampered to help from the State in the way of education that will furnish him the skill. If it is a duty of the state to provide training for citizens aspiring to be lawyers, physicians, engineers, teachers, etc., it is just as surely the duty of the State to provide proper facilities for training of citizens to be efficient farmers. Farming is just as much a needed occupation as any of the professions mentioned.—Houston Post-Dispatch.

Marvin Birdwell Off To K. of P. Meeting

Brazos Lodge No. 64, Knights of Pythias, will be represented at the 1927 convention of the Grand Lodge of Texas by Past Chancellor Marvin J. Birdwell. The Grand Lodge will convene in Wichita Falls on Tuesday of this week and extend through Thursday. Mr. Birdwell left Sunday and will spend a few hours visiting friends on the way, arriving in Wichita Falls a time to have the Grand Lodge rank conferred upon him Monday night.

Mr. Birdwell is probably the youngest representative of Brazos Lodge No. 64 has ever had, both in point of age and years of membership in the order. He became a member of the local lodge in 1922, served as Chancellor Commander the latter term of 1926, and is not Master of Work.

Free Baptists Hold Quarterly Meeting

The Free Baptist quarterly conference of Brazos county was held with the Kurten church beginning Friday night and closing Sunday noon. A very interesting, helpful and encouraging session was held. All churches in the conference were represented either by delegates or letters.

Rev. J. L. Bonds of North Zulch preached Friday night. Rev. Milo Moore preached on Saturday night and Rev. C. B. Thompson of North Zulch closed the meeting Sunday noon with a great sermon. The general theme of the quarterly meeting was the denominational objectives for 1928.

Vergne Andrews Chosen Captain Bryan Hi Baseball Team For 1928

BY R. NELSON FULLER
At a meeting of the baseball players of the Bryan high school, this morning before school, Vergne Andrews was elected captain for the year 1928. It was a tight race between Vergne and Andrews, Andrews winning by a vote of five to four.

Yesterday afternoon the following players were awarded letters in baseball for the present season: Captain Barry Dismann, Horace Dunsay, Solon Griffith, Lynn Griffith, Charlie Cummings, Ervin Conway, Nelson Fuller, Malcolm Barron, Curly Cobb, Vergne Andrews, William Robertson, and Frank Scanlin. Frank Scanlin is the only player who has not been named before in some sport at Bryan. He is a sophomore and has two more years ahead of him. The season just completed has been the second best year that the high school has had. In 1927 the baseball team played eight games and won them all. This year's team played ten games and won nine of them. Beginning with the Caldwell game on March 15, the team met and defeated all opposition until the second game with Breckenham was played. Breckenham won 10 to 2, but the next day Bryan defeated the season in a which won 10 to 2, defeating Blinn Memorial College 15 to 9. Caldwell was defeated 15 to 9, Taber lost to Bryan seven to nothing and Bryan won from Consolidated 17 to 4. A five-inning contest was won from Taber 25 to 1, and Consolidated was again beaten seven to four.

A trip was then made to Egan where the locals won the district game of the year, eight to six. The next week Egan came to Bryan for a return game and went home with the small end of an 18 to 2 score. Breckenham high was the next team to bow to Bryan, the score being ten to six. As has been stated, Bryan lost in Breckenham ten to three and beat Blinn 17 to 9. Coach Cox has been most fortunate this year in having two good dependable hurlers upon which to rely. Lynn Griffith, southpaw twirler had the best year of his baseball career this season. Against Caldwell and Egan, and in one Breckenham game, Lynn pitched a masterpiece. Especially was his strike out record good. In only one game was Lynn off form. Cummings pitched good ball in all of the contests he hurled. Even the last hard in the last game of the season, he counted twice to victory because of the big lead piled up by his team mates. Cummings has two more years of high school competition and by the time of his graduation he probably will be one of Bryan's outstanding pitchers. Of the ten games played, Cummings won six. In two games he did not lead the entire nine innings, but he received credit for winning them both.

Bryan had two capable receivers in Horace Dunsay and Solon Griffith. Both men can hit the ball very well, but Dunsay is the better member of the two. In a pinch, both can play in the outfield. Conway and Fuller alternated at first base, Conway playing that position most of the time while Fuller also played in better field during two games. Captain Dismann played the keystone bag with Bob Cloud, a freshman, as an understudy. Cloud should make a good showing during the remainder of his high school days.

Malcolm Barron was the regular shortstop during the season. Besides being a valuable man in the field, Barron led the hitters for the season. He was at the bat 23 times and collected an even dozen hits for the respectable batting average of .344. That is good hitting in any man's league. Alvin Adams played short and third part of the season. Willie Koonce was an understudy of Curly Cobb, regular third baseman. Curtis has the fastest and hardest peg of any of the infielders. Koonce may be a good third baseman were he faster in covering ground. Both he and Cobb are fairly good hitters.

The regular outfield was composed of Vergne Andrews, William Robertson, and Frank Scanlin. They played left, center and right fields respectively. Up until the last two games of the season, this outfield was leading the rest of the team in the batting department. But as neither Andrews nor Scanlin hit safely in the two games and as Robinson did not make the trip, the outfielders naturally fell down in hitting. Andrews and Robertson have been whips from the outfield to home. Scanlin sometimes uses a peculiar side-arm swing in his throws to the plate. During the season, only two errors I believe, were made by this trio of players. Indeed, it would be difficult to rank one above the other two. Andrews and Scanlin will be back next year.

Taft Koonce is a good outfielder and judger of fly balls. With more experience, especially in batting, Taft should make a good ball player. Leslie Randolph is a good catcher of fly balls, but needs practice especially in learning to stop ground balls. This was the first year Leslie had gone out for baseball. He graduated this month. Richard Kamey needs more experience both in the field and at the bat. Charlie Palermo's main weakness this year was his ability to hit safely. He was fairly good

infielder. Besides those already mentioned, the following will not return to school: Harry Dismann, William Robertson, and Lynn Griffith.

Next year's team will be built around the following men: Dunsay, S. Griffith, Cummings, Conway, Fuller, Cobb, Adams, Koonce, and Scanlin. As prospects loom up now, Cummings will be the only hurler left over from the present season. He will probably bear the brunt of the pitching. Last year Bryan had three hurlers, this year only two were present, and next year it looks as the three will be only one. Next year's baseball season is some nine months away, however, and the time to begin worrying will be then. We know that there might be a pinch-up in some of the other players. Again they might not be. Egan's hoping for another good season next year, however.

I nearly forgot to mention that Bryan scored 127 runs to their opponents 49.

With one of the most successful years in the history of the school, the Woodville school closed today. There were 26 students enrolled at the beginning of the year, five moved away with their parents, and the other 21 remained through the last day. Sixty percent of the students were promoted. This school is taught by Mrs. P. A. Tardy, one of Brazos county's most efficient and popular instructors.

Prizes were given to the four students with the best scholarship and behavior records. The winners were: Annette Morrell, Frances Morrell, Mary Patterson, and Thelma Morrell.

Today the students were brought to the Dixie theatre and given a machine party. Pictures were given to the children for desert. The trustees, Charlie Patterson, Sam Patterson, and Tany Loda, brought the children to Bryan in their cars.

Mrs. Tardy has been elected to teach these for another year, and her work has been highly praised.

Steele's Store School Has Splendid Final Program On Friday

A large and orderly attendance featured the closing exercises of the Steele's Store school Friday night, May 18. Principal E. M. Sory and his staff of teachers consisting of Misses Ollie Wallin, Florence Means and Eva Henderson had coached the pupils in an interesting program embracing three one-act plays interspersed with readings and songs, with special music by several A. and M. cadets.

In his closing address the principal congratulated the pupils upon the excellent work done and the trustees and patrons upon their earnest cooperation calling special attention to the fact that by their united efforts more than three hundred dollars worth of extra school equipment had been purchased and installed. One of the most commodious teacherages in the county is provided in this community and all the teachers are afforded pleasant accommodations.

Principal Sory has been re-employed for another year and will continue to reside at the teachers' home through the summer months. All the old corps of teachers have been offered their positions for next year at substantial advances in salary, but only Miss Henderson has definitely decided to remain. This is an eight month school and already there are plenty of school funds in sight to positively insure no shortening of the term for the ensuing year.

Why Firestone

GUM-DIPPED TIRES Wear Longer

WE recently were given the tremendous advantage of having the mammoth Firestone factories brought to us. In Tire Educational Meetings we were shown, by means of motion pictures, charts, tire samples and complete engineering data, the details of Firestone tire design and construction—and how Firestone and Oldfield tires and tubes are made in the world's most efficient and economical rubber factories.

Firestone pioneered the original low-pressure tire and made it practical by Gum-Dipping. The motion pictures showed us how the cords of the carcass are dipped in a rubber solution, thoroughly saturating and insulating every fiber of every cord with rubber. Simple demonstrations and tests illustrated the great advantage of this process, which supplies the extra strength to withstand the extra flexing strains of low-pressure construction—one of the reasons why Firestone Gum-Dipped Tires are establishing such unheard-of mileage records.

Children's Day To Be Held In Bryan June 18

Superintendent of Schools Madison Hall announced today that he had received communication from the Childhood League, New York City, urging the local schools to participate in the nation-wide observance of Children's Day, which falls this year on Saturday, June 18. In many cities throughout the country, according to Miss Marjorie Candee, secretary of the league, appropriate exercises will be held in the schools on Friday afternoon, June 17, and group recreation activities in the playgrounds on the following Saturday.

"Many people do not realize the importance of the schools in shaping the future manhood and womanhood of the nation," said Miss Candee, "especially in developing social instincts. The schools today aim to do more than impart learning. They seek to build character, especially in relation to others. The gang instinct of which we hear so much nowadays is a perfectly normal one in children and is termed the 'herding instinct' by psychologists. Children naturally like to play together and if properly directed this 'gang' instinct results in great social good.

"Better understanding of children and their needs is the object of observance of Children's Day," continued Miss Candee. "The future welfare of the nation requires that it give a thought to childhood. Better children grow up into better citizens."

Bryan Citizen Honored By Governor Dan Moody

Another signal honor has come to one of Bryan's most prominent citizens in the appointment of Judge W. C. Davis as Presiding Judge of the Second Administrative Judicial District of Texas, by Governor Dan Moody.

Notification of his appointment came to Judge Davis yesterday in the following letter from Governor Moody:

"House Bill No. 580, passed by the regular session of the Fortieth Legislature, found at page 228 of the General Laws, Regular Session of the Fortieth Legislature, provides for the division of the State into nine Administrative Judicial Districts for the purpose of bringing about an exchange of districts among the several district judges of the State and assisting the judges of the State and assisting the judges in disposing of the crowded conditions of the dockets of the several courts.

This law provides that I shall appoint a presiding judge for each of the nine Administrative Districts. It is my pleasure to tender you appointment as presiding judge for the district in which your district is located.

"I believe that this act to which I make reference and under which I tender you appointment has large possibilities for good in helping dispose of congested legislation in certain places. Of course, its success depends very largely upon the attitude the courts take towards its purpose and policy.

"I hope you will be able to accept the appointment, and I feel

Pretty Girls Bedeck A. & M. Cadets With Flowers While Mothers And Dads Are Interested Spectators

(Special to The Eagle). COLLEGE STATION, May 9.—While hundreds of mothers and fathers from all sections of the state looked on, 2,000 A. and M. cadets, drawn up in company formation, were decorated with flowers for Mothers' Day Sunday morning by a bevy of pretty, smiling-eyed girls.

Pinning flowers on the cadets was one of the features of Mothers' Day program observed here. Twenty girls, one for each company of the cadet corps, participated in the flower pinning ceremony. Escorted by the captain of the company and his aides, each girl moved along the line of the company she honored, pinning small bouquets to the lapel of each cadet as she progressed. When the cadets had received lapel bouquets to wear in honor of their mothers, the corps proceeded into Guion Hall where the formal program was held.

The services in Guion Hall were conducted by the cadets, the program this year being a student program almost altogether. Cadet Captain S. F. Brewster, of Belton, chairman of the general program committee, presided. Speakers included Cadet Captain W. T. Clark of Weatherford and Cadet Lieutenant J. R. Wood of San Antonio. Brief but ringing tributes to mother and dad were voiced. Special music was rendered by the A. and M. band quartet, under direction of Bandmaster R. J. Dunn.

Afternoon program included R. V. Drill and band concert while mothers and fathers gathered together with their sons at a banquet in the evening at the Mess Hall. Chairman Brewster presided and talks were made by a number of representatives of A. and M. Mothers' Clubs over the State. President T. O. Walton of the college was scheduled to appear to make a talk to the parents but was unable to do so on account of illness. Dean Charles E. Friley of

A number of honors have come to Judge Davis in the past and this is but an added testimonial of the esteem in which this honored citizen is held by the Governor and other Governors of Texas.

Governor Neff appointed Judge Davis as presiding judge in the Court of Civil Appeals Tenth District, Waco, during his administration. He was also a delegate to the Democratic National Convention in 1926 at New York. He is a member of the Board of Regents of Baylor Belton College.

He is one of the leading orators of this section of Texas and takes an active part in religious, fraternal and civic activities.

He expressed himself as greatly pleased with the honor and confidence shown him by Governor Moody in tendering him this important post, and stated that he would accept, believing that much can be accomplished in the way of relieving congested dockets in the trial courts of the State.

The School of Art and Sciences appeared in the place of Dr. Walton. He expressed the regrets of the president at being unable to be present and extended the welcome of A. and M. to the visiting parents.

Approximately 500 mothers, fathers and sons attended this banquet. In a brief talk by the chairman in opening the affair, thanks were expressed to W. A. Duncan, supervisor of subsistence, for the provisions made to accommodate the crowd and the excellence of the banquet.

Union church services at which student pastors at the college presided were held in the Assembly Hall following the banquet. Review of the cadets was staged Monday morning in honor of the visiting parents, many of whom remained over. Following the review the parents made visits of inspection to class rooms and over the college campus. Lunch at the Mess Hall Monday concluded the program.

The attendance for Mothers' Day this year was larger than ever before, and the program was declared one of the best since the custom was established in 1924. A number of Mothers' Clubs were represented for the occasion, among them being the Dallas, San Antonio, Fort Worth, Waco, San Angelo, the Brazos County Mothers' Club and others.

TOTAL OF ELEVEN FEET GIVEN TO ASSURE THE NEW PROJECT

Six Feet More Between Main and Bryan Avenue; Ordinance Passes by Vote of Four to One; One Member Thinks People Should Vote on Proposition

Six foot additional frontage was granted to R. W. Howell at yesterday's called meeting of the City Commission for the building of the new hotel in Bryan. At a meeting of the commission in March five feet were given on Twenty-seventh street adjacent to block 256. The vote yesterday was 4 to 1. Commissioners Wilson Bradley, H. A. Burger, D. L. Wilson, and Major L. L. McInnis voted for the ordinance, while E. J. Jenkins voted against it. Mr. Jenkins asked that it be written in the minutes that he voted against the ordinance because he thought the matter should be settled by a vote of the people and not by a vote of the city commissioners.

LOST IN THE WOODS

The friends of Dale Weddington and Harry Snapp are today congratulating them on spending a "night out." Saturday afternoon Mr. Weddington and Mr. Snapp went squirrel hunting and fishing on the Navasota River. Sure of their guide posts they waited until far into the night before they started home. Then it was they found the shadows of the night had veiled the guide posts until they all looked alike and after many vain attempts to find their way home to no avail they builded a big brush fire and went to sleep for the remainder of the night. The sun was far up before they landed back at Bryan Sunday morning, weary and worn.

"A Pair of Sixes" Senior Class Play Bryan Hi School

The senior class of Bryan High School will present on May 17, a farce in three acts entitled "A Pair of Sixes." The cast is made up entirely of seniors and is under the direction of Miss Elizabeth Holt. In the action of the play two business partners in a pill concern fall out, and one of them has to become the butler of the other for a year. The incidents after this will keep the audience in a roar of laughter. It is enough to make the sourest man in Texas laugh. Be at the Palace May 17, and see for yourself.

The proceeds of the play will go to aid the class in paying for the program clocks which the senior class presented to the high school as a parting gift. This bell system is the most expensive and the most useful gift ever given to the high school by a graduating class.

The admission price is only fifty and seventy-five cents, so you can't afford to miss it. Tickets can be reserved at A. M. Waldrop & Co.

Trade Marked Goods The Fruit of Experience

"That was the best cloth I ever had. I wish I could get some more." How often you hear such remarks, or perhaps make them yourself.

Trademarked goods are a very practical solution of the difficulty. If an article has pleased you, you can ask for it again; if not, you know what to avoid. Trademarked goods insure you the same high quality no matter when you buy. They remove the last bit of guesswork from shopping.

The J. C. Penney Company May Festival of trademarked goods is an appropriate continuation of the April Silver Anniversary. When we hand out a branded article we are saying, "Here is the benefit of our 23 years of merchandising experience. Behind this name stands the honor of a great Company."

Annual Home Coming Staged By Steep Hollow Cemetery Association Directors And Officers Re-Appointed

The crowds from the various communities of Brazos and surrounding communities, who attended the annual homecoming of the members of the Steep Hollow Cemetery Association Sunday, May 8, at Steep Hollow church five miles east of Bryan, were agreeably surprised to find the little cemetery there to be one of the beauty spots of this county.

Flowers in great profusion, bright coloring and fragrant are in full bloom on the grave lots and also bordering the driveways and walks. Shrubbery of many kinds has been planted over the entire cemetery in an artistic way the plan of arrangement worked out by the directors of the Cemetery Association which is most effective. No grass or weeds are to be seen in the cemetery, every lot being in perfect condition, and well kept. The thanks and praise of all should be given the board of directors and managers of the Steep Hollow Cemetery Association for the success they have attained in their work, in keeping so beautifully that "City of the Dead."

The association in session Sunday reappointed the directors and managers for another year as follows: C. M. Rinsinger, president; Mrs. Laura Mims Hicks, secretary-treasurer; I. M. Cook, C. M. Rinsinger, T. P. Hall, J. J. Vandiver, W. H. Buchanan, Mrs. I. M. Cook, Mrs. Ethel Edmonds, H. P. Dansby, E. U. Peters, J. E. Hensarling, Mrs. Laura Mims Hicks, Mrs. Lola Sample, Mrs. J. W. Wiley, J. D. Martin, T. A. Hensarling.

Because of the neglect of some of the members to pay their annual dues the report of the treasurer showed that about \$75 additional would be necessary to carry on the work for the remainder of the year, or until the date of the next meeting, November 11, 1927. This deficit was quickly met by those present, and the work will proceed unimpeded.

It was unanimously voted at the meeting on Sunday to raise the annual dues from \$1 as heretofore to \$2 per year. This additional amount will take care of any additional improvements in the cemetery that may be needed from time to time.

I. M. Cook presided at the meeting.

BRAZOS COUNTY

Boys' and Girls' Club Department

Club Notes and Farm News By County Agent C. L. Beason

Missouri Pacific Offers Prize
The Missouri Pacific is offering a scholarship to A. and M. Short Course, all expenses paid, for the best essay written on "The Agricultural Possibilities of Brazos County." Who wins?

A. & M. College Short Course
Freddie Conrad, president of the Tabor Boys' and Girls' Club is urging the members of his club to attend the Short Course whether they win a scholarship or not, saying that the association with the 1000 or 1500 club boys and girls, the pick of Texas' farms, will be of inestimable value to any boy or girl.

Pecan Budding Taught
During the past month some 20 or 30 boys at Smetana, Steele's Store, and Tabor, have learned to do pecan budding, the teachers of each of these schools taking the boys out to the demonstrations when conducted in their respective communities. Quite a number of these boys are now at work propagating paper shell varieties on native trees. Charlie Locke says he has found that the "follow up" work is all important if you expect the buds to amount to much. Cutting strings, re-waxing, forcing buds, shaping up tree, etc., being some of the things which need to be looked after. All dead branches which girdlers have cut should be picked up now and burned, lest an army of moths be turned loose in your pecan orchard for greater destruction in the future. On examining one of these dead branches County Agent Beason showed some 12 or 15 worms in one branch and stated that each would soon make a moth that would do additional damage to the trees.

Keep Clubs Going
Now that most of the schools are out, each club should see to it that the meetings are held on scheduled time, and if the teacher is the adult leader, as is the case in many clubs, an assistant adult leader should be named during the time the teacher may be away, or out of the community. The adult leader can keep the club going and advise with the members as to many things the club should undertake. In other words, speaking in terms every one understands now-a-days, the leader is the "coach" of the club without salary.

Club Rally Day Success
District Agent George W. Johnson, declares that the club rally on last week showed the finest looking bunch of boys and girls he has seen lately. Yes, Mr. Johnson, and they have a song they sing that runs like this, "Ambition is Our Watchword, and success is our aim." For such a bunch it would seem that the future promises much.

Howells Lead the Way
Never before have the people been so willing to lend encouragement to club activities. On the rally day the Chamber of Commerce, under the direction of W. S. Howell, chairman of the agricultural committee, had provided so many things that others wanting to help could not get in. George Stephan of the Stephan Ice and Bottling plant, wanted to treat the kids to soda pop, but the program was so full there was no time left in which to take advantage of this liberal offer. Thanks, George, just the same. They'll be coming back again sometime.

Rye Club Interested
For the two months ending on April 30, the Rye Club would have scored perfect but for 5 boys who failed to join the club. Johnnie Zemanek, you ought to appoint a committee to call on these boys and kindly ask them to help you win that \$12.50 every two months. With a perfect score the world could not beat you.

The "Devil" Not To Blame
The report of Alma Kindt's dairy project in last week's club notes should have stated that the milk production for the first 28 days of April was 831 pounds in stead of "831 gallons." The "devil" declares he is not to blame for this error. At any rate, "He who makes no mistakes does nothing; he who makes too many loses his job."

Reliance Club Leads
The Reliance Boys' and Girls' Club enjoys the distinction of being the first club in Brazos county to report a 100 per cent enrollment. But for a few absentees at the April meeting, the Reliance Club would have scored perfect in enrollment, attendance at meetings, and keeping of records. Principal Barnett and the other teachers of the Reliance school are to be commended for the cooperation they have given club work, and helping put that club where it can be an easy winner in the future, if the individuals of the club keep up their projects and attend the meetings. The standing of the club is based on 10 for enrollment, 40 for attendance at meetings, and 50 for keeping up records. Every two months the Howell Lumber company will award \$20 in cash to the clubs making the highest average, \$12.50 for first prize and \$7.50 for second. The standing of your club will be announced this week.

Agriculture Leaders Sought
In speaking to a group of Extension workers Dean E. J. Kyle of the A. and M. College declared that our task is not one of finding or developing athletes, but rather one of finding and training leaders of a better agriculture. Certainly the Boys' and Girls' Clubs in Brazos county are performing wonderfully well in this connection as anyone may see who visits the various club meetings held in the respective communities of the county. Favorable comment has been heard concerning Dan Walling, president of Steele's Store Club; Johnnie Zemanek, president of the Rye Club; Wallace Sabo, president of the Kurten Club; Vera Atkins, president of the Shiloh Club, and many others. The teachers are doing a great work in helping train these youngsters in community leadership, the crying need of this day.

all their spectral horror. Mother! May God bless her, she never fails; she is never wanting when love and duty calls her to her children. Truly, the Mother love is God's greatest masterpiece of creation; it is "high as heaven; as deep as the sea; and as broad as the universe." Have you noticed sometimes, at the close of day, as the sun sinks into the west and the twilight comes slowly down, that the tallest tree tops hold longest the burnished light of the sinking sun? There they stand glittering like golden sentinels of light. It is like the Mother love; it lingers on this earth long after she has gone to rest. It illuminates the lives of her noble sons and daughters, reflecting in them the beautiful Christian virtues, which that love had wrought by service, sacrifice and prayer. God bless the Christian mothers of the world today; those who are planting deep in human hearts and lives the fragrant flowers of faith, love, kindness and service—those undying principles that purify and ennoble all of life here, and lead at last to the blessed home in the land of the long tomorrow.

Mrs. Conlee Is Honored Thursday

If all the good wishes, and loving words given for Mrs. John D. Conlee on her birthday, May 5, 1927, had been placed side by side in a line, "there would be miles and miles of happiness and joy, good health and good wishes for her. At the home of Mr. and Mrs. John D. Gifts, beautiful and useful, exquisite flowers, and other expressions of appreciation were received by Mrs. Conlee on her birthday, and deeply appreciated and enjoyed by her. At the noon hour, a bountiful birthday dinner was served in the home dining room, and later, the birthday cake was cut, with appropriate ceremonies and good wishes for the honoree of the day. Allen Academy Band Receives Royal Welcome From Victoria Citizens--Hundreds Hear Concert

Traveling by motor busses and cars the Allen Academy band accompanied by "Ty" Cobb of the Lions' Club, S. E. Eberstadt representing the Lions' Club and the Bryan Chamber of Commerce, E. A. Lightfoot of the Lions' Club and band director at the Academy, and T. F. Wilson, coach at the Academy, left Bryan early Sunday morning and arrived at Victoria at 5:00 o'clock p. m. This was the first stop on the trip to the State Convention of Lions' Clubs at McAllen which this, the official Lions Band of Texas, is to make.

Ty Cobb in a telephone message to Nat B. Allen reports that Victoria has been royal in its reception of this caravan. The Lions, Rotary and Commercial Clubs of Victoria joined in a very magnificent way into a reception which

shows hospitality hard to equal. Through the co-operation of the Victoria service clubs, the band was entertained at the hotel for the night, and gave a concert to about 5,000 representatives of Victoria, Cuero and nearby cities. The churches of Victoria joined in making the reception a complete success. After the concert the Victoria Chamber of Commerce entertained the visitors from Bryan with a luncheon at which Mr. Cobb, Mr. Eberstadt, Mr. Lightfoot and Mr. Wilson all made addresses.

Mr. Cobb reports that a more royal reception and entertainment could not have been arranged and that the spirit of good-will towards Bryan, The Lions Club, and the Academy could not have been more pleasing.

there an attractive opening for Pastor Brown but also a very attractive proposition for Mrs. Brown in connection with the same institution.

Rev. Brown has not stated what he will do about the proposition. He has been at A. and M. seven years and put over a very constructive program for the Baptist denomination and the College.

SUNRISE BANQUET

Sue Haswell Memorial Park was the scene of a sunrise breakfast this morning, when the senior psychology class of Bryan High School met there with Prof. and Mrs. Madison Hall as chaperones. The boys who arrived early started a cheery fire, and later arrivals helped to prepare coffee, broiled

The class was in its accustomed place in time for the regular morning recitation, with the remembrance of a pleasant early morning outing made possible through the courtesy of Prof. and Mrs. Hall.

William Manthei of Kurten was trading in Bryan Saturday.

Women don't go to New York for a business career, but stay in the smaller towns and with the smaller firms is the advice given by Miss Sadie Emmanuel, advertising manager of Commerce and Finance, Theodore Price's financial publication. Though she has reached the proverbial top rung in the ladder of success and reached it by going to New York Miss Emmanuel says the road is rough in the big city and urges women to enter business in smaller cities and firms; firms in which the tall and head are not so far apart that the head does not know what the tail is doing. After all is said success depends largely upon the individuals themselves and not upon the size of the city or firm.

MRS. GRIFFITH DIES AT HOME AT MIDNIGHT

AFTER ILLNESS OF THREE WEEKS END CAME TO HER PEACEFULLY

The death of Mrs. Jane Griffith at her home in the southeastern part of Bryan, Tuesday, May 10, 1927, at midnight, has made sad the hearts of all and many relatives and friends who mourn sincerely today with the bereaved family. After an illness of three weeks the end came peacefully and quietly at the hour above stated, and the beloved mother and grandmother, after a long and useful life here, passed on to that blessed home in the Tomorrow Land.

Mrs. Jane Griffith was born in the state of Louisiana September 13, 1851, and at the time of her death was 75 years, 7 months and 27 days of age. She had been a resident of Brazos county for the past 60 years, and was one of the pioneer women, who, with faith in God and love in her heart wrought in the days of the early settling of this great state when it took courage of mind and body to withstand the hardships and trials of that time. She was a life long member of the Baptist church, and a noble Christian, whose life reflected the faith she professed.

Deceased is survived by four daughters, Mrs. W. E. Cloud, and Mrs. L. P. Newton of Bryan; Mrs. John Martin of Houston, and Mrs. Henry F. Shepherd of Colorado, Texas. Also one sister and two brothers: Mrs. W. H. Morgan of Bryan, George Hammon of Lampasas and John Hammon of Sherman and many grandchildren, nieces and nephews.

The funeral was held at the home of the deceased, Wednesday afternoon at 3:30 conducted by Rev. J. J. Tatum, and at Reliance Baptist church at 4:15 p. m. under the direction of McCulloch-Dansby funeral directors. Interment was made in the family lot in Reliance cemetery.

Allen Boys Aid Puny Wilson In His Bull Fight

Having achieved lasting fame in athletics Puny Wilson, popular coach of Allen Academy, essayed the role of bull fighter yesterday. Speed developed on the football team enabled him to compete with a raging bull until members of the Allen Academy baseball team came to the rescue of the coach.

A bull, grazing on the football and track field of the school, spied Puny as he was going over to the baseball field. The bull took after the coach, with all the furor of a Longhorn on Thanksgiving Day, and Puny jumped to the right and to the left, sidestepping for more than 40 yards. Just as it seemed that his adversary would get the best of him, Allen boys showed up and the bull stopped to take cognizance of the spectators. Puny then did the 10-fall.

Puny has a couple of bruised legs, but otherwise he is none the worse for his Torredor exploits.

MOST OF DOMESTIC CANE IS GROWN IN THIS SECTION OF LOUISIANA

Growing Forage Crops And Grazing Them With Hogs Is Good Method To Improve Wornout Land, Says Expert

COLLEGE STATION, May 10.—Growing forage crops and grazing them with hogs is a method of improving run-down land that is declared to be very efficient by D. S. Buchanan, professor of animal husbandry at the A. and M. College of Texas. In a recent radio talk on "Hog Pastures" delivered over Station WTAW, the A. and M. College broadcasting station, Professor Buchanan pointed out that the importance of green pastures for hogs is often not realized by farmers, and that the saving of grain is by no means all that is gained by having green grazing available for hogs. He emphasized the fact that green grazing acts as a tonic and furnishes the laxative necessary for the health of the hogs, as well as providing beneficial exercise that the animals need.

"The grain saved by utilization of forage crops is a big item in hog production," Professor Buchanan said. "It is conservatively estimated that forages will save from 25 to 35 per cent of the grain needed to finish hogs for the market."

"Growing forage crops and grazing them with hogs is a very efficient method of improving run-down land. Practically all the fertilizing elements of the vegetation produced on the land, except that stored in the animal bodies, goes back into the soil in manure. The loss is more than offset where extra grain is fed to the hogs."

"Pastures are divided into two classes—permanent and temporary forage crops pastures. A permanent pasture supplemented with a quick growing, heavy yielding, temporary forage crop makes an ideal combination for hog production. Permanent pasture grasses best suited to Texas are Bermuda, bur clover, alfalfa, sweet clover, and lespedeza. Alfalfa and sweet clover are only suited to certain localities. A mixture of Bermuda and bur clover is especially well adapted to Texas. Permanent pas-

tures do best when grazed closely as hogs do not relish grass except when it is young and tender. It is usually recommended that at least one acre of permanent pasture be provided for each brood sow on the farm.

"The value of temporary pasture or forage crop pasture is often underestimated. It is possible to provide green grazing for hogs in Texas during the entire year unless it be during the summer of extremely dry years. Forage crops may be sown broadcast but best results are obtained when the crop is planted in rows. Cultivation can then keep down the weeds and retain the moisture, and less damage will result to the crop from trampling, as the hogs will walk between the rows while grazing.

"Alfalfa, where it can be produced, is the best forage that can be grown for hogs. It should not be grazed too closely as the young shoots will be eaten and the crop destroyed. At least one cutting of hay should be produced during the season even though it is used for pasture. Five to eight 100-pound hogs may be grazed per acre and the usual crop harvested.

"The clovers are similar to alfalfa as a grazing crop and very close to alfalfa in feeding value. "Cowpeas furnish excellent forage for hogs but the grazing season is relatively short. They should not be grazed before the first peas begin to mature and a sufficient number of hogs should be used to consume the plant and seed before they become dry. The growing season of cowpeas is short and this coupled with the fact that they are drought resistant, makes them valuable as a follow-up crop to some early maturing spring crop. An acre of cowpeas will carry five to twelve 100-pound hogs during the grazing season."

Other forage crops for hogs as named by Prof. Johnson are rape, oats, wheat, rye, Sudan grass and peanuts.

PEOPLE WHO WERE ONCE GOOD LOOKING

A heartrending and yet interesting thing happened in a downtown store when a middle-aged lady got into a loud argument with a clerk. "I know what I want," she kept saying. "I have tried all those other things, but I know from what I saw it do for some friends of mine that it is Black and White Ointment which gets rid of those pimples and blotches. I was just as pretty as any girl when I was young, but I got careless and now I am in the fix you see."
So many people are now insisting on Black and White Ointment, and Black and White Skin Soap, to get rid of pimples, blotches, eczema, rash, tetter, ringworm, "breaking out", etc., because they see and hear of the thousands of others who now know they can depend upon it. And they are economical, too. The 50c size Ointment contains three times as much as the liberal 25c size. All dealers have both the Ointment and Soap.—(adv.)

Loss Of Life From Avoidable Accidents In U. S. Last Year Near 78,000 Said Mayo At Bryan Rotary Club Meet

The appalling loss of life from avoidable accidents, totalling in the U. S. last year between 76,000 and 78,000, can be substantially reduced only by the slow process of education", declared H. M. Mayo of Houston before Bryan Rotary yesterday. Mr. Mayo was introduced by W. E. Farmer, in charge of the program, as the head of the Department of Safety of the Southern Pacific Lines in Texas and Louisiana, a department formed by the railroads during war times at the suggestion of the Federal Government.

That a campaign of education gives results, the speaker pointed out that in 1912 a total of 711 men were injured on their lines while in 1928, in spite of a forty per cent increase of business, only 245 men met accidents. The work of the Safety Department has progressed very satisfactorily and now has the confidence of all employees.
While blessing the name of Henry Ford for having put riding pleasures within reach of the masses, Mr. Mayo thinks folks should also consider that the popularization of the auto has resulted in a menace—the development of a new class he termed the "driving fools". Of a little more than 75,000 avoidable accidents last year, about 25,000 were with automobiles.
Grade crossing accidents, however, only took toll of about 1800 persons. "Those who believe that the grade crossing danger should be overcome by eliminating them entirely," he said "should bear in mind that there are 725,000 such crossings in the U. S. and that more are being added each year. Last year 740 were removed and 4500 new ones added. Neither will laws compelling motorists to stop before crossing tracks amount to much, because such laws cannot compel. The main trouble back of most car accidents is too much speed, and

FELT VERY POORLY

Weak and Run-Down Missouri Woman Got Strong and Well. Says Cardui Started Her On Road To Health.

Clarksburg, Mo.—Mrs. T. G. Harris,

of this place, says: "For two years I was in very poor health. Some of the time I was almost past going. I was very weak and run-down."

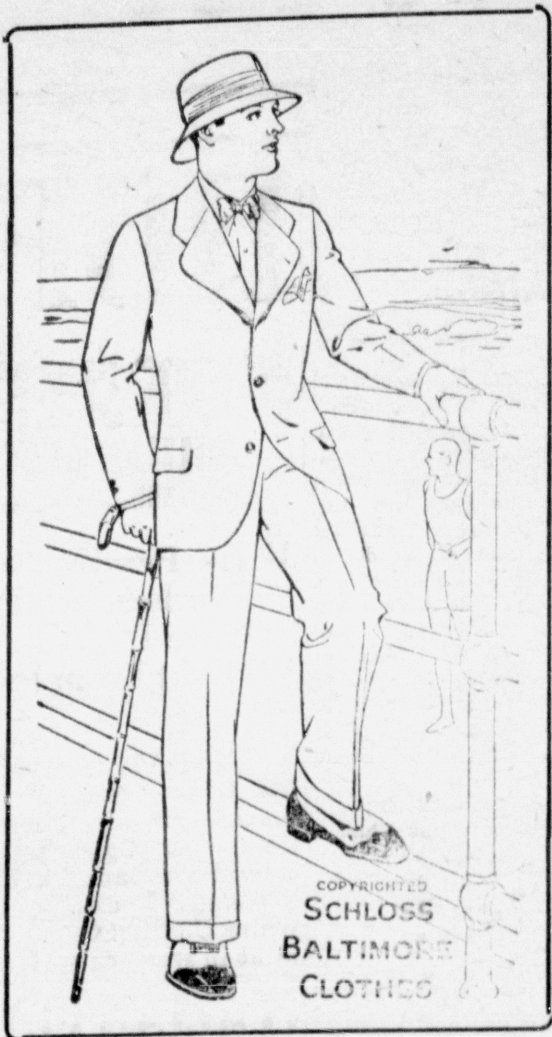

"I tried to make the most of what little strength I had by taking frequent rests, but I could find nothing which would start me on the road to health again, until one day I decided to try Cardui."

"I had heard about other women who had been benefited after taking it, so I made up my mind to see what it would do for me. I took Cardui for several months and was very much gratified with the results."

"I began to do my own work again, which I had not been able to do for a long time past. My color, which had been pale and sallow, became natural, and my complexion cleared up. I gained in weight and was pleased to have an improved appetite."

"When I finished my last bottle of Cardui I was feeling better than I had in years. Now I am strong and well."

A. & M. Newman Club Express Gratitude For Interest of K. of C.

The following letter has been received from the Newman Club of A. and M. College, College Station, as a tender of the club's appreciation of the interest in the welfare of the Catholic students at the college, displayed by the Knights of Columbus in erecting St. Mary's Chapel at A. and M. College. It was written by Joseph Diekmann, president of the club, on behalf of all the members and the officers, C. M. Florer, secretary, and E. E. Figari, vice-president:

"It is my very pleasant duty and privilege to write on behalf of the student body more particularly the Catholic student body of A. and M. College, to give expression to the natural feelings of joy and sense of gratitude we have in our hearts towards the Knights of Columbus of Texas.

"What the chapel means to us cannot be said in a few words. Our debt is greater than expression can possibly convey. Our new chapel is to our spiritual leader, the Very Rev. Dean Gleissner, the realization of a long-cherished dream; to us students it means the fulfillment of many years of hope and aspiration. That our hopes and aspirations after many years of patient effort were to be rewarded in such a beautiful manner, was truly beyond our fondest dreams.

"The worthy state deputy, Mr. Driscoll, and all Knights of Columbus may be assured of our sincerest gratitude. Our chapel will be a lasting monument of their loyalty to church and state—a monument to which they as well as we can and do point with pride.

To Father Gleissner, we A. and M. students will show even greater love and esteem than we have endeavored to show him in the past. His wonderful example of faith, love, self-sacrifice; his untiring efforts in our behalf, culminating in our new chapel, will continue to be an inspiration and make us realize that knowledge alone is not enough, that religion and knowledge make education.

"To the president of our college and the entire faculty we wish to express our sincere thanks for their co-operation and good will. We assure them that the influence that will radiate from the chapel will mean loftier ideals for us and therefore higher aspirations for us as students.

"Last, but by no means least, we deeply feel the gratitude we owe Bishop Byrne of Galveston. Without his lordship's gracious consent and without his keen interest in the erection of our beautiful chapel, Father Gleissner's and our dream could not have become a reality.

"To all our friends, to each and every one, our heart goes out in the spirit of joy and fellowship. We pledge to all our benefactors, that when we leave our Alma Mater we shall follow the example of those who have made our chapel a reality, and in turn exert ourselves to the end that those who will follow us as students will enjoy the privileges that we now call ours, thereby making themselves fit to render the highest kind of service to God and country."—Southern Messenger.

Tabor

TABOR, May 12.—The ladies of the Woman's Club met last Tuesday at the home of Miss Mary Locke. It was our regular meeting day and we had a good sized crowd and a nice time.

We had no program but we had several interesting things such as pruning and staking tomatoes, inspecting gardens, club projects, chickens, etc. Miss Locke has a wonderful lot of chickens and lots of pens, houses, brooders, incubators and everything that would contribute to the success of raising chickens and we feel that she is making quite a success at it.

We enjoyed a very pleasant social hour after we had inspected everything outside and had some good discussions.

We will meet with Mrs. Miller at the High School teacherage at our next regular meet the first Tuesday in June.

Miss Lola Blair will be with us at that time and will give along with other interesting things a demonstration on baking light bread by a quick process. We are expecting other good things from her and Miss Sevier. Every body come and bring someone with you.

Those present Tuesday were: Mesdames Bon Francis, Joe T. Locke, J. L. Closs Jr., R. F. Crenshaw, Will Prensall, Miller, Herbert Smith, and Misses Mary Phenie, Minnie, Della, Annie and Francis Locke and Miss Abbie M. Sevier, home demonstration agent.
